

Summary

I'm a JavaScript developer with over 8 years of experience. I can work with any JavaScript library or framework, as well as vanilla JavaScript. I have developed applications from scratch and am a fast learner, always eager to master new technologies.

Ashot Bagiran

Frontend Developer

Experience

- | | |
|-----------|--|
| 2023-now | Freelance
Web developer
Currently focused on the development of web interfaces and an in-depth study of frontend development, the use of modern technologies and patterns. My aim at the moment is to engage in fullstack development and for this I'm learning Node.js |
| 2021-2023 | Oktan
Frontend developer
Work on creating and automating online stores, while simultaneously plunging into a deeper study of frontend development. Created user interfaces using the React library. Successfully solved performance problems (Memoization, Virtualize Long Lists), as well as structuring components in a reusable. |
| 2018-2021 | Novyj
Fullstack e-commerce developer
I was responsible for fully automating online stores on CMS Opencart, including: automating price list uploads to marketplaces, scraping product photos and descriptions from donor sites, automating pricing based on competitor prices, batch editing of products, and integrating payment systems. |
| 2016-2018 | Freelance
Web Developer
Creation and support of the first business card websites and online stores using the then popular CMS Joomla in conjunction with Virtuemart. Active involvement in the web development industry, learning the PHP language and MySQL databases. |

Education

- | | |
|-----------|--|
| 2022-2023 | React course
The Rolling Scopes
Components, JSX, State, Props, Virtual DOM, Lifecycle Methods, Hooks, One-Way Data Binding, React Router, Redux. |
| 2021-2022 | JavaScript/Front-end course
The Rolling Scopes
JavaScript: Fundamentals, Functional Programming, OOP, Asynchronous JavaScript, REST API, ES6+, DOM, JSON, Algorithms and data structures, TypeScript, Git, Webpack, Vite, Figma, PerfectPixel. |
| 1999-2003 | Graduated Belarusian State Economic University
Bachelor's degree in Economy and Trade Marketing |
